

Real-Link Solutions

Real-Link combines NFC-enabled mobile phones with RFID tags.

FOR SECURITY PATROLS

- Guaranteed proof that a guard was at a particular location
- Monitor activity in real-time.
- Instructions to perform tasks
- Record incidents
- Mobile Patrols, Key Holding, Alarm Response

FOR TIME AND ATTENDANCE

- Track the hours employees work.
- When they arrive and leave site.
- Ideal for payroll purposes
- Proof of attendance for a client.
- Evidence for health and safety reasons.
- No more time sheets or checking clocking cards.

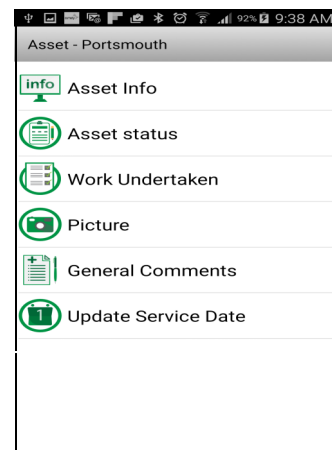

FOR CONTRACT CLEANING

Ideal solution for contract cleaning.

- Proof that a cleaner has been to a client's site.
- Alert office if cleaner not arrived.
- Time spent on site
- Instructions for each site can be sent to the cleaner
- Capture further information, products used or issues that may have arisen.

FOR FIELD SERVICE / ASSET MANAGEMENT

- Instructions of what must be done.
- Records employees arrival and leaving site.
- Full history of work performed.
- Ad-hoc jobs sent using Real-Link's job tickets functionality.
- Monitor each job when started and completed.
- Display History of asset, serial number, condition, parts used.
- Free format notes, pictures, video's

The phone is also an ideal tool to use for Lone Worker Protection as Real-Link makes it easy for employees to instantly transmit that they are in danger.

FOR AUDITS AND SURVEYS

Real-Link has the flexibility to have forms and checklists built quickly and easily:

- Customer Surveys
- Employee Checks
- Quality Audits
- Requests to database to retrieve data based upon entry on phone
- Licence check for validity
- Data recorded such as meter readings
- Record mileage, fuel used
- Set notification period of time exposed to risk
- Alert employers if period expires
- Request stock
- Photographic evidence
- Video recordings

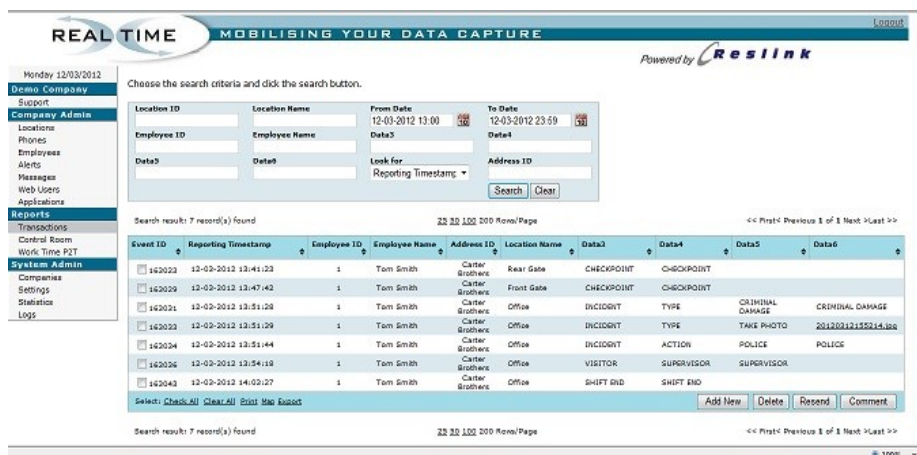

All of this information would also be uploaded to the database immediately via the phone network so that managers and even clients can view the information instantly.

Whatever your line of work—security, cleaning, property management, maintenance, environmental, homecare or any other field of work where employees are not in a fixed location, Real-Link can help control your staff whilst reducing paperwork.

Web Based Reporting via any Browser

Users, Managers, Customers, Head Office can all manage and view a multitude of reports.

- Visibility of data can be restricted by site, by customer, by user.
- Site Managers can add, edit and delete just their site.

Many standard reports, all available in real-time.

- Selection criteria -
 - Date range from to
 - By Site
 - By location
 - By user
 - By any data field

- Specific Reports easily Designed
- Time sheets
- Incident reports
- Maintenance issues
- GPS Tracking
- Where nearest employee is for efficient response
